Members: Tyler Daluz

FT/Citi Ingenuity Awards Program

2011 to 2013

Members: Tyler Daluz

More than half of the world's population lives in cities today, a number which is expected to rise in the decades ahead. As a result, cities have a pressing need to address the challenges of urbanisation and find solutions that modernise infrastructure, improve efficiency, enhance quality of life and foster sustainable growth and development.

The FT/Citi Ingenuity Awards: Urban Ideas in Action, a global programme sponsored by Citi, was developed to recognise leaders, teams, organisations and community groups that have developed groundbreaking solutions to urban challenges that benefit cities, citizens and urban communities in the fields of education, energy, healthcare and infrastructure.

Morgan Stanley Coal Policy Statement

December 2015 to Present
