## **Software Developer**

Document Solutions Group Inc DSG

DSG, a Clinical Software and Services provider of technologies for the pharmaceutical industry. DSG is the oldest and most trusted provider of EDC solutions in the industry. DSG pioneered CRF document management software, setting an industry standard. Its best-of-breed CaseLink allowed individuals to build CRF's electronically, greatly reducing the amount of time it takes to run a clinical trial. CaseLink became the industry standard, and has been trusted and utilized world-wide by the top 4 pharmaceutical companies since 1992.

Project - eCaseLink

Introduction: eCaseLink. With eCaseLink, data is submitted instantaneously to the server, without any client software plug-ins required. This unique feature is reserved only for DSG, and its customers report the cleanest

data, in the shortest amount of time, resulting in millions of dollars in cost savings. eCaseLink's data entry screens are programmed to mimic paper CRFs, making the switch from paper to electronic data entry easy. eCaseLink allows sponsors to run their clinical trial operations on a single, global platform without needing to install different versions of the software for different languages. All data managers and clinicians can work together collaboratively using a single, centrally-managed global database regardless of geographic location or language.

Tools/Environment: ASP.NET, JavaScript, XML 4.0, HTML, SQL Server 2005
