WORK EXPERIENCE

Android Developer

Rutgers Pharmaceutical Industry Fellowship - October 2015 to Present

- Developed Android Application allowing fellowship applicants to schedule interviews and find information about the fellowship

- Utilizes Calendar API and Notifications to remind users about scheduled interviews

- Displays and caches partner company brochures using Retrofit and RxJava

Android Developer

Rutgers 250 - January 2015 to February 2016

- Developed Android Application allowing Rutgers to directly share news, events, and history with Rutgers students

- Integrated REST API backend using Retrofit; caches results using SQLite

- Incorporates Google Maps and Locations API to guide to users through university tours and discover nearby locations

Android Developer

New Jersey Agricultural Experiment Station - December 2013 to December 2014

Developed Android Application created with Java that incorporates the station's website content using XML feeds.
